JANUARY 2021

ARWA Membership – Why Should I Join?

The rural water and wastewater industry face many challenges now and in the future due to increasingly complex regulations. These regulations place an increasing technical and financial burden on small communities and systems. Rural communities and systems must stay informed to keep up with changing laws and regulations governing their systems. Operators, managers, board members, and owners must maintain an adequate level of training to deal with these changes. ARWA offers numerous services and educational opportunities in order to make this possible. We welcome communities and utilities to join our association.

The Arkansas Rural Water Association strives to meet the needs of each individual water and wastewater system.

Suggestions on how we could better serve you and your system or need membership forms?

APRIL 2021

STOP STRUGGLING LOCATING AND KEEPING UP WITH MAPS! Cut down the time locating valves, meters, and manholes!

Arkansas Rural Water Association is proud to offer a GIS Mapping Program that provides GIS mapping services to water & wastewater utility systems who are interested in obtaining accurate maps and geographic data for their water, wastewater or stormwater networks.

With our state-of-the-art equipment and up-to-date technology, we are able to create and tailor maps for systems with sub foot accuracy!

STATE RURAL WATER ASSOCIATION PASS THROUGH OFFER

This offer is to provide State Rural Water Associations and similar Non-profit organizations (Associations) who provide GIS funding, guidance, training, and support to small water utilities (End User) with the ability to purchase ArcGIS online Subscriptions with ArcGIS User Types on behalf of the organizations they are supporting. Esri will provide the Associations with one Creator User Type per subscription at no cost for **one year**. The purpose of this user type is to enable the association to administer the subscription and publish content on behalf of the end user utility.

The size of the End User organization may not exceed a service population of 3,300 people or 1,000 meters to qualify for this offer.

MAY 2021

**WE HAVE HELPED ARKANSAS UTILITIES
COLLECT OVER \$621,500.08 IN BAD DEBT!**

Welcome to the Water Utility Data Base system (**WUDB**). This system was designed and developed to assist utility companies with the tracking of their delinquent accounts. As a customer leaves owing a bill with no intention of paying, WUDB can assist in tracking them to their next utility. Certain legislation has been passed so that the new utility can refuse service until the previous utility has been paid. (Click on **Legislative Resources** to learn more about the legislation passed in your state.) Visit www.wudb.com

Now with **WUDB's** web-based system, water and utility companies can manage their information through their own account. Water and utility companies can communicate with each other using **WUDB's** built in notification system when a match is found. This will help establish the course of action taken to get your money and resolve the matter.

Thousands of dollars in delinquent accounts have been collected through **WUDB** that would have otherwise been written off as bad debt. Let's work together and go after those who owe instead of raising rates on those who pay.

JUNE 2021

ServLine

Residential Service
Line & Leak Adjustment
Program

ServLine is a new and unique insurance program that will cover water lost with no deductible, repair or replace a customer's water and sewer line in a timely fashion. ServLine is a full service program backed by Hanover Insurance Company and is not a warranty program. The difference is warranty programs only provide water line and sewer line repair products and no leak adjustments.

- This program is designed Exclusively for water systems.
- It protects your utility against financial water loss
- Offer customized coverage at the local utility level
- Only available to your Utility – NO DIRECT MARKETING TO CUSTOMERS

Servline helps water utility companies recapture lost revenue and bad debt associated with customer water leaks while also reducing the stress, effort, and time involved in the leak adjustment process. There is a 3-part program that enhances your utilities leak adjustment policy by insuring and administering leak adjustments, providing exterior water line protection, and, when applicable, providing sewer lateral protection as a benefit to your customers.

Turn-Key Process

- Once a utility endorses ServLine, Servline handles everything from there. They implement, market, manage and administer the program. No extra work for you and your staff.

How it works

- Tell us the programs that would most benefit your customers.
- ServLine will create custom marketing communications to send out to customers on your behalf. ServLine provides all materials and it costs you nothing!
- Once a customer signs on, Servline will manage & route any emergency service calls to local, licensed and insured contractors to make repairs.
- Customers can call 24 hours a day - 365 days a year and reach a live person.

No More Headaches! Save Time & Money! Impress Your Residents!

ATTENTION WATER SYSTEMS: YOUR NEW WEBSITE IS HERE!

RURAL WATER IMPACT provides elegant, mobile-friendly websites for Water Systems and small towns – all at a very affordable price. Kick back while we do all the work and setup, then make updates yourself as often as you want. Secure hosting and unlimited support are included, too. You'll never hire an expensive web designer again!

Here are just some of the features your website includes...

Responsive Design

Our site designs are optimized for display across all devices, and are easy to customize.

Send Alerts

Keep your customers up-to-date by sending news and alerts via email or text message.

Accept Payments

Streamline collections and give customers the convenience of online bill payments.*

Easy Updates

Make changes to your site any time you want, without the need of a programmer.

Forms & Reports

Save time and money by posting your CCR and other documents online.

Unlimited Support

Our customer service is fast, friendly and unlimited, so you're never left high and dry!

PLUS: We launch your website in just 3 days – or it's free!

RuralWaterImpact.com

Smart Websites for Smart Water Systems™

Background Checks

Helping you build a better team

NRWA Discounted Background Check Package

We've created the following cost-effective screening package to simplify your background check process. The package uses a combination of multiple sources of criminal record information.

In addition, we validate database records by returning to the source to ensure that we have the latest updates regarding your applicant's history. This provides you with a comprehensive screen that helps answer your questions about a candidate's integrity, so you can select the right individuals for your team.

Package Price: \$30.00

Includes:

- Validated Criminal Database
 - Validated Nationwide Sex Offender
 - Validated Department of Corrections
- Unlimited Single County Searches (7 year address history)*
- SSN Verification w/Address History
- Government Sanctions (Terrorist Search)

Immediate Response Information System

IRIS Features

All Included & Unlimited Use!

IRIS is a SaaS (software-as-a-service) created and owned by TechRadium, Inc. TechRadium is a leading provider of high-speed communication services to water districts, educational institutions, corporations, non-profits and government entities worldwide. IRIS – Immediate Response Information System, gives organizations the ability to broadcast information via voice and text to thousands of people simultaneously with its easy-to-use mass notification service, IRIS. TechRadium is the owner of eleven United States patents and has multiple patents pending.

- Reporting - Real-time reporting for every message you send out. Reports are downloadable, as well!
- 24/7/365 Support - Are you frustrated with automated support? We are too! Call IRIS Support and you will speak with a live human!
- Global Services - Need to send notifications to people in China, Canada, or Australia? We have got you covered across the globe.
- Flexible Pricing - We will customize a plan for you. You choose and pay! Pick between users or credits, and only pay for what you use.
- Two-Way SMS - Truly engage your audience. Utilize IRIS two-way text messaging.
- Grouping - Need to group your message recipients, or nest your groups in sub-groups? IRIS offers unlimited groups and sub-groups.
- Survey - Looking for volunteers? Want to get feedback regarding a topic? IRIS offers a robust interactive survey.
- Schedule Alerts - Tell IRIS when you want your message to be sent. This is great for reminders.
- Message Library - Have a message you want to send repeatedly? Save it in your IRIS Message Library and use it when needed.
- Easy Upload - IRIS offers you two methods to upload your data. Use the secure IRIS portal, or send data through our API (Application Programming Interface.)
- Voice Record - Send personalized messages in your voice. Great for holidays, reminders and political calls.
- Dev Tools - IRIS offers a robust API (Application Programming Interface) for sending alerts, checking reports and managing users.

OCTOBER 2021

Contact us at Submit@bsrins.com today!

Bailey Special Risks has partnered with NRWA to provide cyber security insurance to water and wastewater systems. This exclusive program offers Beazley Breach Response, a unique insurance, loss control and risk mitigation

Coverage Highlights

Coverage features include data breach notification and credit monitoring or identity monitoring services for up to 100,000 affected individuals, with separate coverage limits for third party claims.

The biggest risk for most organizations doesn't come from hackers. It comes from the organization mishandling its response to a breach. What's really at stake in a data breach is reputation.

THE RURAL WATER LOAN FUND

The Rural Water Loan Fund (RWLF) is a funding program specifically designed to meet the unique needs of small water and wastewater utilities. The RWLF provides low-cost loans for short-term repair costs, small capital projects, or pre-development costs associated with larger projects. The RWLF was established through a grant from the USDA/RUS, and repaid funds used to replenish the fund and make new loans.

Eligible Projects

- Pre-development (planning) costs for infrastructure projects
- Replacement equipment, system upgrades, maintenance and small capital projects
- Energy efficiency projects to lower costs and improve system sustainability
- Disaster recovery or other emergency loans are available

Contact: rwawlf@nrwa.org

NOVEMBER 2021

Healthy
Benefits

What if we had the solution to address the rise in group health insurance costs?

GOOD NEWS! WE DO!

The National Rural Water Association, in collaboration with Medova Healthcare and Mike Keith Insurance, is pleased to introduce Lifestyle Health Plans as a unique health benefits program designed to address the underlying causes of the rise in healthcare costs for both employer and employee alike - employee health behaviors.

What makes Lifestyle Health different?

- ERISA Fully-funded major medical plan designs
- Premium savings averaging 10-15% in most cases
- Integrated wellness incentives and cash-rewards
- Up to a \$500 deductible credit available to all wellness participants
- Underwritten by "A" rated carriers
- Integrated concierge telemedicine, outpatient lab and diabetic supply benefits

To learn more about how Lifestyle Health Plans can work for you and take advantage of our program-negotiated pricing, contact Mike Keith Insurance at (800) 530-5229 or via e-mail at jeanie@mkeithins.com.

Are you interested in an ACA-compliant, wellness-inspired group health benefit program that can save your company money while addressing the health and wellness of your employees?

LEARN MORE about how you can offer your group a health benefits solution that boasts flexible plan designs, alternative funding structure, integrated wellness and employee incentive programs.

Questions?

DECEMBER 2021

CHRYSLER GROUP FLEET PROGRAM

The National Rural Water Association and the Chrysler Group have created a partnership to offer a Volume Incentive Program (VIP) to State Rural Water Associations and their utility system members. This partnership combines the buying power of 31,000 individual utilities to provide reduced fleet pricing on utility vehicles. You will have access to special fleet benefits as a preferred Chrysler Group customer.

FORD FLEET PROGRAM

The National Rural Water Association and the Ford Motor Company have created a partnership to offer special fleet discounts to State Rural Water Associations and their utility system members. This partnership combines the buying power of 31,000 individual utilities to provide reduced fleet pricing on utility vehicles. The Ford Fleet Team is #1 in commercial fleet customer satisfaction according to surveys. The Rural Water Ford Fleet Program is a valuable member benefit for water and wastewater utilities. State Rural Water Associations determine eligibility for their members, and provide a fleet code that allows access to substantial vehicle discounts to fill the need for reliable work vehicles. Fleet vehicles must be registered in the name of a member water or wastewater system.

Details online at: www.nrwafleet.com.
