

# COVID – 19

Arkansas Utility Systems,

Effective immediately, Arkansas Rural Water Association will be following National Rural Water Association's federal guidelines and halting on-site visits for our field staff. If your system has an emergency, please contact the ARWA office or field staff immediately. We will evaluate the situation and, if deemed necessary, a field technician will go to your facility to provide hands-on assistance.

ARWA is here for our members during this time of uncertainty with the COVID-19 pandemic. We will continue to monitor any changes of the COVID-19 pandemic and adhere to additional State directives as they are issued.

**ARWA Contact:**

Office Phone: 501-676-2255
