NOVEMBER 2022

STOP STRUGGLING LOCATING AND KEEPING UP WITH MAPS!

Cut down the time locating valves, meters, and manholes!

Arkansas Rural Water Association is proud to offer a GIS Mapping Program that provides GIS mapping services to water & wastewater utility systems who are interested in obtaining accurate maps and geographic data for their water, wastewater or stormwater networks.

With our state-of-the-art equipment and up-to-date technology, we are able to create and tailor maps for systems with sub foot accuracy!

STATE RURAL WATER ASSOCIATION PASS THROUGH OFFER

This offer is to provide State Rural Water Associations and similar Non-profit organizations (Associations) who provide GIS funding, guidance, training, and support to small water utilities (End User) with the ability to purchase ArcGIS online Subscriptions with ArcGIS User Types on behalf of the organizations they are supporting. Esri will provide the Associations with one Creator User Type per subscription at no cost for one year. The purpose of this user type is to enable the association to administer the subscription and publish content on behalf of the end user utility.

The size of the End User organization may not exceed a service population of 3,300 people or 1,000 meters to qualify for this offer.

DECEMBER 2022

**WE HAVE HELPED ARKANSAS UTILITIES
COLLECT OVER \$621,500.08 IN BAD DEBT!**

Welcome to the Water Utility Data Base system (**WUDB**). This system was designed and developed to assist utility companies with the tracking of their delinquent accounts. As a customer leaves owing a bill with no intention of paying, WUDB can assist in tracking them to their next utility. Certain legislation has been passed so that the new utility can refuse service until the previous utility has been paid. (Click on **Legislative Resources** to learn more about the legislation passed in your state.) **Visit www.wudb.com**

Now with **WUDB's** web-based system, water and utility companies can manage their information through their own account. Water and utility companies can communicate with each other using **WUDB's** built in notification system when a match is found. This will help establish the course of action taken to get your money and resolve the matter.

Thousands of dollars in delinquent accounts have been collected through **WUDB** that would have otherwise been written off as bad debt. Let's work together and go after those who owe instead of raising rates on those who pay.

**3320 Highway 64 East • P.O. Box 68
